

# MoM PRICE LIST - 2021

Diving is dangerous. **Cave and Mine diving is deadly. There is nothing in the MOM worth dying for!**

Prevent your death. **No entrance** in the MOM is allowed without:

- + Solid proof of valid **cave/mine diving certification** (cave and full cave according to dive profile) from worldwide **recognized training agency** (*RSTC, NSS-CDS, NACD, CMAS – others will be verified prior to diving*).
- + Solid proof of all the **necessary additional diving certifications** for the specific dive from worldwide **recognized training agency**: Nitrox, CCR, Dry Suit, DPV etc...
- + Solid proof of **cave/mine diving experience** (logbook)
- + A valid **medical certificate** from a physician
- + Solid proof of valid **cave/mine diving insurance** from worldwide recognized diving insurance company (DAN, Dive Assure, etc...)
- + Proper **cave diving equipment** checked and approved by MoM staff.

Before diving all participants need to present and sign a **dive plan** (including rescue plan), sign **liability release**, sign **discharge of responsibility** and must

accept and sign the **general rules/code of conduct** of the MoM.

**All dives are guided dives.**

*\* The City of Olgiate Molgora supports the MoM. There is a 6€ contribution fee included in the price of every dive.*

*\* Water is precious. Water is a limited resource. It is needed for all living things and must be managed well to ensure we have enough for our needs and to protect our environment. Water is a precious resource. There is a 6€ preservation fee included in the price of every dive.*

*\* Bats here are a unique feature in Europe. At about 3-400 meters from the entrance of the MoM, you can find hanging specimens of Myotis Capaccini and Myotis Nattereri: the singularity of the colony is in the fact that these are two species at serious risk of extinction and that they are on the list of the Annex of the IV Directive 92/43 / EEC concerning the conservation of natural and semi-natural habitats of wild flora and fauna. There is an 8€ protection fee included in the price of every dive for the bats.*

## Dividing in the MoM

MoM cave is an important and strictly protected national and regional treasure. The divers should be extremely cautious during diving, showing proper techniques and behavior and doing the lowest possible impact to protect the environment, flora and fauna and preserve its original condition.

Diving is limited to:

- 1 dive group (1 guide + divers) at once in the mine, maximum
- 2 dive groups per day, maximum
- 4 diving days per week, maximum

It is strictly forbidden to take anything out from the cave, and all divers should strive for "contactless" diving.

**Smoking** is strictly forbidden inside the MoM (including electronic devices) prior to and after the dive.

Failure to comply with these rules will lead to lifetime expulsion.
